

Meet the Nehila's, their horses and see the farm on **Open Farm Day, Sunday, October 19th**

“My husband Tim and I are up every morning at 5 to feed and care for the horses. He’s a driver and horse trainer, I’m a certified med technician. We’re in harness racing because we love the sport, our farm in Scarborough, and our horses.”

“We want our son Nicholas to know that it’s important to work hard at what you do, and to love and believe in it.”

“The gaming facility in Bangor has started a turn-around for this industry. We’re making a little money now since the purses have increased. People are getting back into racing that had left, they’re buying horses and equipment, they’re fixing up their farms, keeping their land.”

“If voters knew how hard people work in this industry...this is no 9-5 kind of job – there are no days off.”

Meet the Nehila's of Holmes Road, Scarborough

“We spend about \$25,000 a year with local businesses for hay, grain, sawdust, equipment, veterinary services – and we’re just a small farm. Imagine what is spent by the whole industry on small businesses?”

“Harness racing is a family business, grandfathers work with grandchildren, fathers with sons, siblings with siblings, passing on the heritage of racing, of working with horses.”

~ Sarah, Tim and Nicholas Nehila
97 Holmes Road, Scarborough
